these three States 492 incidents of Naxalite violence took place during the current financial year (upto October, 31) as against 362 reported in the corresponding period last year.

(b) and (c) No specific study has been conducted by the Ministry on this issue. However the widespread social economic and regional inequities prevalent in these States, poverty, unemployment and displacement of the tribals from their habitat remain the basic causes for the continuance and spatial expansion of Naxalite activities.
